Welcome to Anbar Province, USA!

I was insulted that these "leaders" would  
(for NRA money and some "States' rights"  
bullshit point) make abstract the notion that  
everybody in Wyoming is so dangerous- to each  
other and the government authority that does  
permitting so antagonistic to the people's  
interest-that we have to put up a "Welcome"  
sign and invite any crazy in the world to  
move here and start "packing" in 90 days-  
regardless of a prior conviction for domestic  
abuse, etc.

I opposed the bill, was harassed by state  
legislators and then - when I complained-  
anonymously by DCI Deputy Director, Kebin  
Haller, illegally using his office telephone.

When I asked for help in getting telephone switch evidence that would prove who called me illegally from the State, both U.S. Atty Matt Mead and Wyo. Atty General Pat Crank called in DCI to "Get on the same page" with me: To cover up the abuse by DCI's Kevin Haller, later shown by the Governor's office to be a serial telephone abusing terrorist (he also went after a wife of a police officer in Cheyenne).

This shows where Wyoming politics lies: Fascist use and protection of secret police to perform political missions. I was threatened in my home for over an hour, my right to petition the State Legislature curtailed. "Because the first paragraph here is goofy!" (DCI State Operations commander, Forrest Clay Williams)
